

## **Pro Column Structural Post Frequently Asked Questions**

### **What textures are available?**

Combed or Resawn or Smooth

### **What are the size options?**

4x4, 6x6, & 8x8 (up to 16-ft)

### **Are These Pro Columns Structural?**

Yes

### **What are the load ratings and where can I find them?**

Yes, find under product dimensions section on the Pro Column web page.

### **Can Pro Column be used as a header or horizontal beam?**

No, only rated for vertical post applications

### **Are Pro Columns stain grade or paint grade primed?**

Both. For columns that are primed white, solid body paint should be used. For columns that are primed brown, a semi-transparent paint or stain can be used for a cedar appearance.

### **Do primed Pro Columns need to be finished with a commercial topcoat?**

Yes, an onsite topcoat must be applied upon installation for the manufactured warranty to remain intact.

### **What is the Pro Column Limited Warranty?**

The Pro Column limited warranty covers 15 years. As a natural wood product, our warranty does not cover natural occurrences such as knots, knot bleeding, variations in color, mineral streaks, or pitch pockets. For full warranty information, view the warranty document under technical information.

### **When does the warranty go into effect?**

All material must be reviewed prior to installation. UFP-Edge will consider the installation of the product as final acceptance and will not honor any claims regarding said product.
