The UFP-Edge Rustic Beech hardwood board features a smooth reddish-brown wood grain surface. Each board is wane-free with tight knots. Small, natural surface checks may appear on one face. The natural pattern of rustic beech resembles tropical hardwood and is the perfect choice for interior walls, ceilings, furniture, shelving and many other do-it-yourself projects. Leave the board unfinished or apply a clear coat or light stain to enhance its natural wood grain.

- Smooth and surfaced on four sides (S4S)
- Actual dimensions: 3/4 in thickness x 8 ft length
- Apply stain or clear coat to enhance wood grain surface
- Use as a trim board with many interior projects
- For interior applications: walls, ceilings, and DIY projects
- Shows knots and wood grain will vary per board
- Works well with hand and machine tools
- Ideal for walls, ceilings, molding and DIY projects
- Distinct and vibrant wood grain pattern
- Smooth surface square edge boards
