8 in. x 13 ft. 4 in.

Textured Panel

.375 x 4 x 10 ft.

Board and Batten

4/4 x 3 x 13 ft. 4 in.

ColorRISE™ Finish

The ColorRISE factory coating technology featured on RISE® siding and trim products combines Edge Prefinished proprietary paint process with innovative equipment and a specially formulated PPG Duracolor® machine-applied paint. The result is an extremely durable and beautiful finish with exceptional consistency.

RISE synthetic fiber siding and trim is created using a patented process that compresses recycled materials into dense and durable wood-replacement products.

This building product breakthrough looks and works just like real wood and is second-to-none in aesthetics and durability. Matching trim is also available in prefinished ColorRISE colors.

Prefinished panel and soffit options are also available by special order.

FEATURES:

- Realistic wood appearance
- Durable UV-protected finish
- Assortment of colors and textures
- Superior paint adhesion for lasting performance
- 15-year finish/30-year substrate limited warranties
